HOBART

HOBART, WHERE EQUIPMENT AND SERVICE JOIN TOGETHER IN SUPPORT OF YOU.

Hobart makes a full line of equipment for the food retail industry, including baking, cooking, food machines, weigh wrap, warewashers and Traulsen refrigeration. We support our customers when and where it counts the most. In the field, at your place. With a nationwide network of service locations and technicians across the country, we're always close by to install, maintain and service your equipment.

OUR SUPPORT STARTS WITH HOBART RELIABILITY.

Hobart reliability starts at the beginning, with continuous analysis and testing of the raw materials used in both design and production. Each component of newly designed equipment is put through extensive testing. Throughout the manufacturing process, every Hobart product undergoes a series of systematic inspection checks to assure dependable and efficient operation. The final result is the most reliable food equipment in the industry.

NEW TECHNOLOGY AND INNOVATION TO SUPPORT YOUR FUTURE.

Hobart's award-winning, innovative food equipment supports you with new ways to help you improve product consistency, increase productivity, lower cost of ownership and help create a safe working environment.

EMPLOYEE TRAINING. ANOTHER SIGN OF OUR SUPPORT.

We can help you get your staff up and running quickly on our equipment. All our equipment comes with easy-to-follow training manuals. Some come with video instructions. We can also arrange for operator training programs at your business site(s) or work with your training staff to help set up programs.

CONSULTANT SUPPORT.

Our representatives will work closely with your consultant, providing the latest information on new products, cost-saving analyses, up-to-date specifications and performance data on all Hobart equipment.

With every piece of Hobart equipment, you get our unique support network. For more information, go to www.hobartcorp.com or call 1-888-4HOBART.

HOBART CUSTOMER CARE

Hobart Equipment Customer Care:

1-800-333-7447 – Inquiries about customer orders

Hobart Equipment Customer Care can be reached on e-mail through our web page at www.hobartcorp.com

WEIGHING SYSTEMS – SERVICE SCALE (PC BASED) HLX

Listed by UL, Certified by NSF, NTEP

STANDARD FEATURES:

Operator Mode

- Large color touch screen operator display (10.4").
- Standard VFD or optional graphical color customer display.
- Search database by description or nearest PLU number.
- Flash keys can be laid out by categories or classes.
- Programmable go-to-keys allows user to jump immediately to a location instead of going through a menu tree.
- Product and shelf life by day and/or hour.
- Programmable display of operator viewable fields.
- Flash keys links to intranet, web, or video pages: flip button in browser to scale application.
- Operator notes and product notes.
- Onscreen help questions and answers.
- Pop-up alphanumeric keyboard/numeric keypad.
- Ability to integrate Fresh Item Management solutions.

Supervisor Mode

- Onscreen help questions and answers.
- USB ports can support external keyboard and/or mouse.
- Graphics use a name instead of a number.
- Visual display of database records.
- System can estimate the number of additional records that may be added to the scale.
- COOL records can be created on the scale.
- User definable default values for item records.
- Database backup/merge/restore from USB drive.
- Database can be named to store more than one database to USB drive.
- Persistent storage of PLU records.
- Remote accessibility.

WEIGHING SYSTEMS – SERVICE SCALE (PC BASED) HLX (Self Service)

Listed by UL, Certified by NSF, NTEP

STANDARD FEATURES:

- The Consumer weighs, labels and prices their product in the department at the scale.
- Easy-to-use interface designed similar to current self check out POS systems.
- Clean, uncluttered interface with crisp graphic images.
- Multi-lingual.
- Simple, easy to understand directions.
- Search product by "most popular", "A to Z", or PLU lookup.
- Configurable screen operation (return to start screen).
- Configurable size of flash keys, text on flash keys.
- Dual price frequent shopper displaying and labeling.
- Displays item information.
- Supported by 3rd party scale software.
- Design Increases self service scale use.
- User interface complements front end POS.
- Durable self-service post stands available as an accessory.
- Onscreen help questions and answers.
- Animations for consumer guided operation.
- 30 lb. x 0.005 dual range capacity.
- Zero button.
- Database can be backed up to USB drive.
- Email notification for out-of-labels.

**HLX
Self Service**
(Shown with POST-SS)

WEIGHING SYSTEMS – SERVICE SCALE

Quantum

STANDARD FEATURES:

- 30 lb. x .01 graduations, optional 30 lb. x .005 lb. Dual Range.
- Full capacity tare.
- 115 Volt, 60 Hz, Single Phase, 1.25 Amps, 150 Watts.
- Dual price frequent shopper labeling.
- NSF Certified.
- Lowest profile of any comparable scale on the market – 5¼" high.
- ATM style console with LCD graphics display.
- Flashkeys.
- Graphics capability.

- Retailer defined security.
- Easy cassette label loading system.
- Large label roll capacity.
- Custom label sizes and formats available from 1¾" to 10" length.

Memory

- 8.5 MB RAM standard, over 10,000 PLU's with standard item information.

Programmability

- Manual entry with keypad or attached keyboard.
- Network via serial, TCP/IP, or wireless communications.
- Flash drive or disk backup and restore.

Listed by UL, Certified by NSF, NTEP

Quantum Self Service

STANDARD FEATURES:

- The consumer weighs, labels and prices their product in the department at the scale.
- Easy to read keypad.
- Telephone keypad format.
- Smooth keyboard stands up to cleaning and sanitizing.
- 30 lb. x .01 graduations, optional 30 lb. x .005 lb. Dual Range.
- Full capacity tare.
- 115 Volt, 60 Hz, Single Phase, 1.25 Amps, 150 Watts.
- Dual price frequent shopper labeling.
- NSF Certified.
- Lowest profile of any comparable scale on the market – 5¼" high.

- ATM style console with LCD graphics display.
- Flashkeys.
- Graphics capability.
- Retailer defined security.
- Easy cassette label loading system.
- Large label roll capacity.
- Custom label sizes and formats available from 1¾" to 10" length.

Memory

- 8.5 MB RAM standard, over 10,000 PLU's with standard item information.

Programmability

- Manual entry with keypad or attached keyboard.

Listed by UL, Certified by NSF, NTEP

- Network via serial, TCP/IP, or wireless communications.
- Flash drive or disk backup and restore.

Quantum Max™

STANDARD FEATURES:

- 30 lb. x .01 graduations, optional 30 lb. x .005 lb. Dual Range.
- With Flash ROM, the Quantum scales are accessing the server for the latest scale application.
- Touch screen's ease of use makes the Quantum ideal for self service areas.
- Updates in a Flash! Less than two minutes!
- Hobart's Flash Keys combine with touch screen technology to allow the operator to perform transactions with one finger.
- Interfaces easily with PCs.

- Always current, automatically pulling data from the Intranet server. Aids loss prevention while improving merchandising at scale.
- 8.5 MB memory, over 10,000 PLU's with standard item information.
- Lower cost of ownership. No need for service to update each scale manually.
- Choose your technology: Wireless or wired connectivity. TCP/IP included.
- Flash RAM lets you update your scale software remotely, eliminating the need for manual removal of chips.
- Redesigned touch screen keyboard simplifies operation.

Listed by UL, Certified by NSF, NTEP

WEIGHING SYSTEMS – MECHANICAL SCALES

PR30 & PR309

PR30-1

PR309

STANDARD FEATURES:

- Full temperature compensating mechanism for stability in environment changes.
- Double face dials for readability from both sides of scale.
- Two automatic dampeners reducing indicator oscillations for quick reading.
- Easy to clean chrome finished housing.
- Durable stainless steel pan for easy unloading and cleaning.
- **PR30** meets or exceeds weights and measures H-44, Class III requirements.
- **PR309** meets weights and measures H-44, Class IV requirements.

WEIGHING SYSTEMS – DIGITAL SCALE

HBR301

HBR301-1

STANDARD FEATURES:

- Easy-to-read display
- Legal for trade
- Battery power supply (4) D cell
- Energy saver setting – set shutoff time to extend battery life
- Low battery indicator
- Check weighing
- Batch weighing
- Over and under weighing
- Adjustable display head for easy viewing
- Toggle between lb. and kg.
- Stainless steel platter
- Tare indicator
- Preset tare (package weight)
- Keyboard tare
- Zero key
- Stable weight indicator
- Automatic zero tracking
- AC/DC adapter
- Leveling leg set
- Leveling indicator

WEIGHING SYSTEMS – PRICE COMPUTING AND PORTION CONTROL SCALE

PS40

PS40
Price Computing and Portion Control Scale

STANDARD FEATURES:

- Simple touch key operation.
- Bright operator and customer backlit displays.
- Audible beep response.
- 6V 4-amp rechargeable battery comes standard.
- Power cord comes standard.
- Up to 50 programmable speed keys.
- 30 lb. x .01 weighing.
- Weight/price/total price displayed to 6 digits.
- Small footprint – 13.9"W x 13"L x 4.9"H.
- NSF Certified and legal for trade.

WEIGHING SYSTEMS – PREPACK SYSTEM

Access – Stand Alone System

STANDARD FEATURES:

- Large color touch screen display (10.4").
- Flashkeys can be set up by categories or classes.
- Go to keys allows user to jump immediately to a location instead of going through a menu tree.
- Onscreen help questions and answers.
- USB port can support external keyboard.
- Functions as a web browser: simply plug into your hard-wired or wireless connection to access the internet or your own custom web site.
- PC based architecture.
- 1½", 2¼" and 3" wide labels up to 4" length for auto-apply.
- Accepts up to 8" long labels for hand application.
- Access EPP Printer: 120/60/1, 1.25 Amps, 150 Watts, 26.05 lbs. shipping weight.
- Access EPCP Control Panel: 120/60/1, .50 Amps, 65 Watts, 15.9 lbs. shipping weight.
- Weigher Capacity: 30 lb. x .01 lb. (30.09 maximum) or 50 lb. x .01 lb. (50.09 maximum).

WRAPPING SYSTEMS – AUTOMATIC

AWS

STANDARD FEATURES:

- Fully automatic – operator places package into the Access, weighing, wrapping and labeling is all done automatically.
- Integrated scale and label applier to reduce floor space requirements.
- 2 rolls of film to minimize film usage.
- Hose-downable just like the meat saw or mixer grinder.
- Weighing capacity – 30 lbs. (Manual) 15 lbs. (Automatic mode); weighing increments – .01 lb; minimum weight to print – .20 lb.
- Package size width – 4.5" min, 16.0" max; length – 4.5" min, 10.1" max; height – .4" min, 6.0" max
- Wrapping Speed – Maximum of 30 packages per minute
- 120/208-240 (4 wire-2 hot lines, neutral & ground) 60 cycle, 1 phase, 20 amps
- Shipping Weight – Approximately 1,300 lbs.

MODEL NO.	AWS-1LR	AWS-1RL
Direction of Operation	Left to Right	Right to Left

WRAPPING SYSTEMS – AUTOMATIC EWS

STANDARD FEATURES:

- Fully automatic – operator places package into the Essential, weighing, wrapping and labeling is all done automatically.
- Integrated scale and label applier to reduce floor space requirements.
- 1 roll of film to simplify film requirements
- Wrapping speed – maximum of 20 packages per minute.
- Package range up to 10" L X 15" W X 6" H (25D & 1014 trays).
- Weighing capacity – 30 lbs. (manual) 15 lbs. (Automatic model); weighing increments – .01 lb.; minimum weight to print – .20 lb.
- 120/208-240 (4 wire-2 hot lines, neutral & ground) 60 cycle, 1 phase, 20 amps.
- Shipping weight – Approximately 1,300 lbs.

69A Platter Shelf – 14 1/4" x 24 1/2". Shelf and brackets stainless steel. W3-2C Wrap Station only. Shipping weight 10 lbs.

WRAPPING SYSTEMS – SEMI-AUTOMATIC CLA System

Listed by UL

STANDARD FEATURES:

- **Compact Size** – Requires less floor space, smaller than conventional semi-automatic systems.
- **Package Size Range** – Small 1S tray (5" x 5") up to 12" x 16".
- **Increases Productivity** – Typical operator can average 14 packages per minute and a second wrap station can be added.
- **Film Savings** – Wrap station can hold up to 3 sizes of film, film brake on wrap station assists in stretching of film.
- **Conveyor Scale** – Scale can be used for manual weighing of prepackaged product, weighs up to 30 lb. x .01 increments.
- **4 Position Swivel Wand** – Label can be rotated in all 4 directions for merchandising packages in the meat case, automatically controlled by the Access Scale System.
- **Positive Label Application** – Label is held in position during the transfer from the printer to the package.
- **Left to Right or Right to Left Configurations** – Operator has ease of access in either configuration.
- **Open Design** – Operator has full view of the meat packages.
- **Improved Sanitation** – Catch-all drawer built into the label applier.
- **Storage Compartment** – Storage area for up to 3 spare printer cartridges or other miscellaneous supplies.

Dimensions: System: 8'11" x 2'6". CLA: 22" long x 24³/₈" wide x 65¹/₄" high.

Electrical: CLA: 120/208-240 (3 wire)/60/1 14.5/8.0 amps.

Shipping Weight: CLA – approximately 300 lbs.

WRAPPING SYSTEMS – COMPONENTS Rotary Bin

RBG

MODEL NO.	RBG

Electrical	N/A
Motor	N/A
Shipping Weight	65 lbs.

Equipped with hard rubber casters on self lubricating bearings.

WRAPPING SYSTEM – COMPONENTS

Straight Roller Conveyors

STANDARD FEATURES:

- Durable 3/4" diameter aluminum rollers.
- Attaches to CB-1108 or CLA.
- Construction – Heavy gauge steel frame and legs with baked epoxy finish.

Sealer Belt

MODEL NO.	SP-5
Overall Dimension	42" L x 16 ⁵ / ₈ " W x 31 ¹ / ₈ " D (9" Deep at Motor)
Height: Intake	35 ¹ / ₂ " to 38"
Discharge	—
Sealer Belt	12" Wide; 330" Per Minute; Motor Driven
Electrical	208-240/60/3; 3 Wire; 6.5 Amp
Shipping Weight	75 lbs.

HRT Roller Table

Compact designed roller discharge table:

- 3 foot work table with 2 foot adjustable input conveyor.
- Sixty inches of total package accumulation on conveyor.
- 14 gauge 304 stainless steel finish.
- Meat tray storage underneath.
- Available left-to-right or right-to-left configuration.

Bottom Label Applier

BLA
shown with CLA Conveyor/
HRT Roller Conveyor

Hobart's Bottom Label Applier quickly and reliably applies key information to the bottom of meat packages that today's shoppers want to know and that industry regulations may require. Can include safe-handling instructions, nutritional information, cooking instructions and country of origin labeling (COOL) information.

LABELS:

- 1½" x 2" labels.
- Hobart Part No. 184979-1.
- 2000 labels per roll.
- Ten rolls per case.

BENEFITS:

Labor Savings

- Less time used to answer questions that now can be done by the scale label.
- Let the scale label do the job of other labels that are hand applied.
- Less labels to order and stock.

Cost Savings

- Less expensive than using pre-printed film.

Security Label Applier

SLA

The Hobart Security Label Applier can automatically attach an EAS tag to the backside of the scale label. The Security Label Applier can be added to any existing or new Hobart Access scale system.

STANDARD FEATURES:

- Auto apply EAS Tag on Demand.
- Uses standard roll of EAS Tags.
- Tag is hidden under scale label.
- Alert operator when out of tags.
- Easy to load/thread security tags.

BENEFITS:

- Labor savings.
- Only higher profit items get tagged.
- Consistent tag location helps insure deactivation.

ELECTRICAL:

110 VAC, 60 Hz, 1 amp.

SHIPPING WEIGHT:

25 lbs.

CONSTRUCTION:

Durable Kydex casing with stainless and aluminum components.

VACUUM PACKAGING EQUIPMENT HT120

HT120A
Analog Controls

HT120DG
Digital Controls

STANDARD FEATURES:

- Vacuum chamber size: 7.25" high x 16.75" wide x 19.56" long.
- Up to three cycles per minute.
- Quick-change, 16-in. seal bar.
- Compact tabletop model saves valuable countertop space.
- Simple operation and easy-to-use controls.
- Ideal for small to medium size processors, restaurants and supermarkets.
- Lid hinge system increases opening angle for easier product loading.
- The heavy duty, 1.25 horsepower BUSCH 021 vacuum pump powers the Hobart HT120 for years of dependable service.

QUALITY AND VALUE YOU CAN SEE

The "Traulsen Difference" is much more than just a catchy advertising slogan. Rather it aptly sums up our overall philosophy of providing both high-quality and high ownership value in everything we do.

Let's face it, there are less expensive refrigerators and freezers on the market. However, only the refrigeration equipment works 24/7 in your kitchen, and has the ability to lose \$100's or \$1,000's of product in a single day. Then of course there is the inconvenience. If your refrigeration fails it upsets your entire operation, so this is no place for compromises.

Traulsen recognizes this, so we design and build our equipment to really deliver for you in all the vital areas of importance to your business. Durability and reliable operation are just the beginning. They also offer you the benefit of energy efficiency, large storage capacity, ease of use, long equipment life, and a host of value-added features.

But most of all they are designed for performance. After all, temperature maintenance and recovery are absolutely critical to both food safety and controlling food costs, which is what refrigeration is all about. In this we excel, that's why Traulsen has been the industry leader for seven decades and counting.

Refrigeration System

By combining carefully balanced, high quality components with precise microprocessor controls and careful construction, our systems cycle less often, and offers the energy efficiency you're looking for while still providing the outstanding reliability and performance your operation needs.

Ownership Benefits

- ☒ Reduces Food Cost
- ☒ Reduces Energy Cost
- ☒ Reduces Service Cost
- ☐ Value Added

Easy to Use Controls

Traulsen uses "plug & play" microprocessor controls which have no moving parts, are much more precise than typical electro-mechanical controls, and replaces several of the most common failing parts (such as the time clock and temp control), providing far greater reliability.

Ownership Benefits

- ☒ Reduces Food Cost
- ☒ Reduces Energy Cost
- ☒ Reduces Service Cost
- ☒ Value Added

Concealed Light Switches

Traulsen solid door models include the light switch concealed inside every door hinge (even on half-height door models). This operates the interior lights automatically whenever the door is opened, while also protecting the switch from damage during loading/unloading.

Ownership Benefits

- ☐ Reduces Food Cost
- ☐ Reduces Energy Cost
- ☒ Reduces Service Cost
- ☐ Value Added

Interior Arrangements

Each shelf has a rated capacity of 225 lbs. They span the entire inside width of the cabinet, are mounted on a pin system which does not require tools to remove, and don't ever need "junior" shelves between them. For convenience they are installed at the factory.

Ownership Benefits

- ☐ Reduces Food Cost
- ☐ Reduces Energy Cost
- ☒ Reduces Service Cost
- ☒ Value Added

Condenser Cleaning

Cleaning the condenser coil is the single most important thing you can do to keep your refrigeration equipment operating efficiently. Traulsen locates this right behind the lift-up louver panel, facing front, making it so easy to clean this can be done in as little as a minute.

Ownership Benefits

- ☒ Reduces Food Cost
- ☒ Reduces Energy Cost
- ☒ Reduces Service Cost
- ☐ Value Added

Metering Device

Use of a TXV allows for better temp recovery than possible with capillary tube designs. This is especially important during busy lunch and dinner periods where the doors are opened frequently. Your Traulsen will recover temperature quickly, keeping your food safe and minimizing shrink.

Ownership Benefits

- ☒ Reduces Food Cost
- ☒ Reduces Energy Cost
- ☐ Reduces Service Cost
- ☒ Value Added

QUALITY AND VALUE YOU CAN SEE

Heating System

By using large, low watt-density heating elements combined with low velocity fans, Traulsen's hot food holding cabinets offer outstanding performance with no temperature stratification, most are Energy Star listed for efficiency, start-up quickly and greatly reduce lifetime service costs.

Ownership Benefits

- ☒ Reduces Food Cost
- ☒ Reduces Energy Cost
- ☒ Reduces Service Cost
- ☐ Value Added

Warranty Terms

Traulsen's warranty period begins at the time of **ACTUAL INSTALLATION**, regardless of time from shipment. This says that we stand behind our equipment, not hide behind the warranty. Most competitors have a clause limiting their standard warranty to 15-months from date of shipment.

Ownership Benefits

- ☐ Reduces Food Cost
- ☐ Reduces Energy Cost
- ☐ Reduces Service Cost
- ☒ Value Added

Raised Metal Door Liner

Much more durable than those made of plastic, they are unlikely to ever crack or break. Their raised design protects the gaskets from damage during loading and unloading. As a result the gaskets will likely have to be replaced less often than those of some other brands.

Ownership Benefits

- ☐ Reduces Food Cost
- ☐ Reduces Energy Cost
- ☒ Reduces Service Cost
- ☒ Value Added

All Metal Construction

Look, you'll find no plastic used anywhere in the construction of our reach-in cabinets. The doors are metal. The handles are metal. The breaker caps are metal. There is no plastic seam surrounding the doors or cabinet front perimeter. There is nothing but high quality metal used throughout.

Ownership Benefits

- ☐ Reduces Food Cost
- ☐ Reduces Energy Cost
- ☒ Reduces Service Cost
- ☒ Value Added

Cam-Lift Hinge Design

Traulsen uses cam-lift type door hinges. These self-close at up to 90°, have a stay-open feature past 120°, and can be opened past 180° without damage. They are heavy duty and include a lifetime warranty.

Ownership Benefits

- ☒ Reduces Food Cost
- ☒ Reduces Energy Cost
- ☒ Reduces Service Cost
- ☐ Value Added

Insulation

Traulsen insulates the entire cabinet, including the doors, with at least 2" foamed in place insulation. Not only does this provide superior insulating characteristics, but it also adds significant strength to our already rugged design.

Ownership Benefits

- ☐ Reduces Food Cost
- ☒ Reduces Energy Cost
- ☒ Reduces Service Cost
- ☒ Value Added

Air-Flow Pattern

Traulsen's clockwise air-flow pattern keeps cold air in and warm air out much better than back to front designs, which tend to spill cold air out on to the floor whenever opened. A key element is our rear biased return air-duct that protects the system from ingesting warm kitchen air whenever the door is opened.

Ownership Benefits

- ☒ Reduces Food Cost
- ☒ Reduces Energy Cost
- ☐ Reduces Service Cost
- ☐ Value Added

Dead Bolt Door Locks

Traulsen solid door units use only a sturdy cylinder type lock. The deadbolt catches upon a solid metal lock keeper mounted alongside, providing for a secure door closure. When any Traulsen door is locked closed, it stays closed!

Ownership Benefits

- ☐ Reduces Food Cost
- ☐ Reduces Energy Cost
- ☒ Reduces Service Cost
- ☒ Value Added

REFRIGERATORS, FREEZERS

Reach-In Solid Door Models

STANDARD FEATURES:

- Stainless steel exterior front finish
- Stainless steel exterior door finish
- Anodized aluminum sides (including returns) and interior
- Microprocessor control with 3-digit LED temperature display
- 115/60/1 voltage, self-contained, with cord and plug attached (208/115V 3-section freezers) (remote options available)
- Automatically activated incandescent light with concealed switch
- -10°F freezer capability (freezers only)
- Self-closing doors with stay open feature and locks
- Easy to clean profile gasket (coming in 2013)
- Three epoxy coated shelves per section
- Four 6" high casters with brakes
- Automatic, non-electric condensate evaporator
- Guaranteed for life door hinges
- Guaranteed for life door handles
- Three year parts & labor warranty
- Five year compressor warranty

Concealed Light Switches

Traulsen solid door models include the light switch concealed inside every door hinge (even on half-height door models). This operates the interior lights automatically whenever the door is opened, while also protecting the switch from damage during loading/unloading.

Ownership Benefits

- ☐ Reduces Food Cost
- ☐ Reduces Energy Cost
- ☒ Reduces Service Cost
- ☐ Value Added

Please refer to www.energystar.gov to view the most up-to-date product listing and performance data.

Reach-In Glass Door Models

STANDARD FEATURES:

- Stainless steel exterior front finish
- Anodized aluminum sides (including returns) and interior
- Microprocessor control with 3-digit LED temperature display
- 115/60/1 voltage, with cord and plug attached, consult factory for other voltages
- All models shown self-contained (remote options available)
- Incandescent light with exterior switch
- Self-closing doors with stay open feature and locks
- Easy to clean profile gasket (coming in 2013)
- Three epoxy coated shelves per section
- Four 6" high casters with brakes
- Automatic, non-electric condensate evaporator
- Guaranteed for life door hinges
- Three year parts & labor warranty
- Five year compressor warranty

Metering Device

Use of a TXV allows for better temp recovery than possible with capillary tube designs. This is especially important during busy lunch and dinner periods where the doors are opened frequently. Your Traulsen will recover temperature quickly, keeping your food safe and minimizing shrink.

Ownership Benefits

- ☒ Reduces Food Cost
- ☒ Reduces Energy Cost
- ☐ Reduces Service Cost
- ☒ Value Added

Heating System

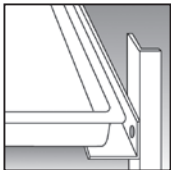

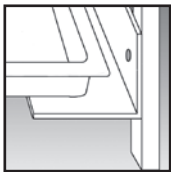

By using large, low watt-density heating elements combined with low velocity fans, Traulsen's hot food holding cabinets offer outstanding performance with no temperature stratification, are Energy Star listed for efficiency, start-up quickly and greatly reduce lifetime service costs.

Ownership Benefits

- ☒ Reduces Food Cost
- ☒ Reduces Energy Cost
- ☒ Reduces Service Cost
- ☐ Value Added

G - SERIES TRAY SLIDE & SHELF VERSATILITY CHART

#1 TRAY SLIDES			SPACING			
			2"	3"	4"	5"
	16 ga. stainless steel angle type for bottom support of: (1) 18" x 26" Pan or (2) 14" x 18" Pans	Behind full length door	28	19	14	11
		Behind upper half door	13	9	7	5
		Behind lower half door	13	9	7	5
#4 TRAY SLIDES:			1-1/2" SPACING			
	Plated steel rod type for rim support of: (1) 18" x 26" Pan Please note that one pair of #4 tray slides accommodates one half section.	Behind full length door	38			
		Behind upper half door	18			
		Behind lower half door	18			
#UNIVERSAL TRAY SLIDES: (For heated cabinets decrease quantity by 1, upper level has 3" top clearance):			TOTAL CABINET CAPACITY			
			4"	5"	6"	
	16 ga. stainless steel angle type for bottom support of: (1) 18" x 26" Pan or (2) 14" x 18" Pans or (2) 12" x 20" Pans	Behind full length door	14	11	9	
		Behind upper half door	6	5	4	
		Behind lower half door	7	5	4	
SHELVES (PLATED OR STAINLESS STEEL):			TOTAL CABINET CAPACITY			
			STD.		MAX.	
Behind full length door mounted on pins			3		9	
Behind half length doors mounted on pins			3		8	
Behind full length door mounted on pilasters			3		13 (4" spacing)	
Behind half length doors mounted on pilasters			3		12 (4" spacing)	
Interior Arrangement Note: The above quantities represent the maximum amount of tray slides recommended by Traulsen to achieve best air circulation and refrigeration performance.						

REFRIGERATORS, FREEZERS, HOT FOOD CABINETS, DUAL TEMPS

Reach-In Solid Door Models

STANDARD FEATURES:

- Stainless steel exterior
- Stainless steel interior (R-Series)
- Anodized aluminum interior (A-Series)
- NAFEM Data Protocol compliant INTELA-TRAUL® microprocessor control system
- Self-contained, balanced refrigeration system (refrigerators & freezers) (remote options available)
- Environmentally friendly R-134a (refrigerators) and R-404a (freezers) refrigerant
- Standard operating temperature 34°F to 38°F (refrigerators), 0°F to -5°F (freezers), 135°F to 180°F (hot food cabinets)
- Self-closing doors with stay open feature
- Easy to clean profile gasket (coming in 2013)
- -10°F high capacity freezer application for high demand application
- Guaranteed for life cam-lift hinges
- Automatic non-electric condensate evaporator (refrigerators & freezers)
- Three plated shelves per section
- Automatically activated incandescent lights
- Guaranteed for life work flow door handle
- Stainless steel breaker caps
- Magnetic snap-in door gaskets
- Four 6" high adjustable stainless steel legs
- Remote Glycol applications (refrigerator & freezer only, consult factory)
- Wine temperature application option (dual temps, "W" & "N" width models only)
- Three year parts & labor warranty
- Five year compressor warranty

All R-Series models are also available in the Traulsen A-Series which is identical to the R-Series, however, the A-Series models are built with an anodized aluminum cabinet interior.

REFRIGERATORS, FREEZERS

Compact Undercounter Models

STANDARD FEATURES:

- Stainless steel exterior front, top, sides and door(s)
- Anodized aluminum interior
- Interior mounted thermometer
- 115/60/1 voltage, self-contained, with cord and plug attached
- Self-closing door(s) with stay open feature
- Easy to clean profile gasket (coming in 2013)
- Two powder-coated shelves per door
- Four 6" high legs
- Automatic, non-electric condensate evaporator
- Three year parts & labor warranty
- Five year compressor warranty

REFRIGERATORS

Compact Prep Table Models

STANDARD FEATURES:

- Stainless steel exterior front, sides and door(s)
- Stainless steel pan cover with pivoting front lid
- Full compliment of sixth size 4" deep plastic pans and divider bars included
- Reversible, full-length nylon cutting board
- 6" deep pan capacity
- Anodized aluminum interior
- Interior mounted thermometer
- Meets NSF 7 Standard for prep tables
- 115/60/1 voltage, self-contained, with cord and plug attached
- Self-closing door(s) with stay open feature
- Easy to clean profile gasket (coming in 2013)
- Two powder coated shelves per door
- Four 6" high legs
- Automatic non-electric condensate evaporator
- Three year parts & labor warranty
- Five year compressor warranty

REFRIGERATORS Full Size Undercounter Models

STANDARD FEATURES:

- Stainless steel front, door(s) and interior
- NAFEM Data Protocol compliant
- INTELA-TRAUL® microprocessor control system
- Self-contained balanced refrigeration system (remote options available)
- Environmentally friendly R-134a refrigerant
- Standard operating temperature 34°F to 38°F
- Automatic, condensate evaporator
- Two plated shelves per section
- Magnetic snap-in door gasket(s)
- 6" high adjustable stainless steel legs

TU072HT
shown with optional top and casters

- Glycol Application – remote glycol refrigeration application and self-contained glycol or water cooled freezer application options
- Three year parts & labor warranty
- Five year compressor warranty
- UL Listed and NSF Certified

Insulation

Traulsen insulates the entire cabinet, including the doors, with at least 2" foamed in place insulation. Not only does this provide superior insulating characteristics (total R-Factor 12.5), but it also adds significant strength to our already rugged design.

Ownership Benefits

- ☐ Reduces Food Cost
- ☐ Reduces Energy Cost
- ☒ Reduces Service Cost
- ☒ Value Added

REFRIGERATORS Equipment Stand Models

STANDARD FEATURES:

- Stainless steel exterior and interior
- Stainless steel Marine top
- NAFEM Data Protocol compliant
- INTELA-TRAUL® microprocessor control system
- Self-contained balanced refrigeration system (remote options available)
- Environmentally friendly R-404a refrigerant
- Standard operating temperature 34°F to 38°F
- Automatic, condensate evaporator
- Self-closing drawers with stay open feature
- Easy to clean profile gasket (coming in 2013)
- Accommodates 400 lbs. per section
- Each drawer accommodates 6" deep pans
- 4" high casters

- Glycol Application – self-contained glycol or water cooled refrigerator application options
- Three year parts & labor warranty
- Five year compressor warranty
- UL Listed and NSF Certified

Scale Shelf

Cutting Board & Ticket Rail

"All-Day" Temperature Performance to NSF7 Test Requirements

Traulsen's full size prep table is equipped with TempAssure, a specially engineered forced air design which circulates cold air around and underneath the pans as well as lofting a protective blanket over the food surface, effectively insulating it from warm kitchen air.

OPTIONS & ACCESSORIES

Tray Slides

Kool Klad Decor

Correctional Application

Additional Shelves

Drawers in Lieu of Doors

Flanged Legs

Options for R & A Series Reach-In/Pass-Thru

Additional Plated Shelves

Add up to a total of nine plated shelves (8 on half-door models) per section on pins (except 1-section dual-temp models), and up to 13 (12 on half-door models) if mounted on optional pilasters at 4" spacing.

Stainless Steel Shelves

Ideal for when jobsite conditions require an alternative to standard plated shelves.

#1 Tray Slides

16 gauge stainless steel angle type tray slides for bottom support of either one 18" x 26" pan or two 14" x 18" pans.

#4 Tray Slides

Plated steel rod type tray slides mounted on a steel frame for rim support of 18" x 26" pans. **Each pair can accommodate a maximum of 19 pans at 1-1/2" increments**, and equips one half cabinet section (actual pan capacities may vary depending upon cabinet type and door size).

Universal Tray Slides

16 gauge steel angle type tray slides for bottom support of one 18" x 26", two 14" x 18" or two 12" x 20" pans.

Reach-In Drawers

Replace the bottom half door with two or three drawers for convenient pan storage.

6" or 45/8" High Casters

Set of four, plate type casters, two with locks, mount easily at the bottom of any Traulsen reach-in or pass-thru model, allowing them to be moved on-site for easy cleaning underneath.

Locking Hasp(s)

Available in both single or double styles (depending upon model and door hinging), allows you to secure your valuable food stuffs with a simple padlock.

Kool Klad Laminate Decor

Match your kitchen decor from among the many colors of the Wilsonart® rainbow (other manufacturer's laminates also available).

6" High Flanged Legs

Allows your Traulsen model to be secured to the floor, when required for seismic and marine applications.

Correctional Application Package

Combines several features to secure cabinet for use in a corrections facility.

Options for TU & TE Models

Flat Stainless Steel Top

Provides a flat work surface on top of any full-size undercounter. Note that an optional stainless steel top is required if it is being used to support equipment weighing in excess of 100 lbs. or producing heat in excess of 140°F to the top surface. Similar tops with either a Drip Guard Edge or Backsplash are also available. Equipment stand models are supplied standard with a stainless steel marine top with drip guard edge.

Stainless Steel Back

Provides a finished look for any full-size undercounter or equipment stand when not placed against a wall.

Cabinet Extension Sections

Allows you to extend the width of your equipment stand by 6".

Drawers In Lieu Of Doors

6" High Casters or Legs

6" Cabinet Extension Section

Flat Stainless Steel Top

Single Locking Hasp

**Special Roll-In Rack for
TBC1H & TBC2H**

Drawers In Lieu of Doors

Full-size undercounters can be modified to replace one door with two or three drawers.

Doors In Lieu of Drawers

Equipment stand models can be modified to replace two drawers with one door.

#1 Tray Slides

16 gauge stainless steel angle type tray slides for bottom support of either one 18" x 26" pan or two 14" x 18" pans.

Additional Plated Shelves

Universal Tray Slides

16 gauge steel angle type tray slides for bottom support of one 18" x 26", two 14" x 18" or two 12" x 20" pans.

6" High Casters

Set of six or eight, plate type casters, half with locks, mount easily at the bottom of any Traulsen full-size undercounter, allowing them to be moved on-site for easy cleaning underneath.

Options for Blast Chill Models

Condensate Evaporator Kits

Choose from 208V bottom-mounted (model TBC13 only) and 115V floor mounted (models TBC1H, TBC1HR, TBC2H and TBC2HR only).

Stainless Steel Back for TBC5

Special Roll-In Rack for TBC1HR & TBC2HR

Purchase a rack specifically designed to facilitate the air-flow pattern of your Traulsen roll-in or roll-thru blast chiller. Accommodates twenty-six 12" x 20", thirteen 18" x 26" or twenty-six 14" x 18" pans.

Accessories for G-Series Models

Additional Shelf Kit

Kit contains three epoxy coated shelves with twelve pins for easy installation

#1 Tray Slide Kit

Kit contains four pairs (enough for four pans) of #1 type tray slides. Standards and mounting hardware are also provided.

Universal Tray Slide Kit

Kit contains four pairs (enough for four pans) of universal tray slides. Standards and mounting hardware are also provided.

#4 Tray Slide Kit

Kit contains two pairs (enough to equip a full section) of #4 type tray slides. Standards and mounting hardware are also provided.

Leg Kit

Set of four 6" high adjustable legs.

Options for TS Series – Full Size Prep Table Models

Cutting Boards

Choose your prep surface—composite wood or white vinyl. Both board materials are the highest quality, durable and easy to clean.

Shelf for Scale

Ideal when what you're putting together calls for more precise food measurement.

Top Shelf

It's the perfect place to keep spices and other non-refrigerated ingredients within easy reach.

Garnish Rack

Using our optional garnish rack, give your food that final touch without getting your work surface dirty.

WARRANTY STATEMENT

STANDARD DOMESTIC WARRANTY

TRAULSEN warrants new equipment to the original purchaser, when installed within the United States against defective material and workmanship for three (3) years from the date of original installation. Under this warranty, TRAULSEN will repair or replace, at its option, including service and labor, all parts found to be defective and subject to this warranty. Warranty term begins upon the date of Installation, the date of End User Invoice or the date of Dealer Invoice, whichever is proven to occur latest, not to exceed 18 months from Dealer Invoice date (the "Warranty Period"). Warranty excludes components that are removable without tools.

The compressor part is warranted for an additional two (2) years. During this period TRAULSEN will supply replacement compressor(s) if deemed defective, however all installation, recharging and repair costs will remain the responsibility of the owner.

This warranty does not apply to damage resulting from fire, water, burglary, accident, abuse, misuse, transit, acts of God, terrorism, attempted repairs, improper installation by unauthorized persons, and does not apply to food loss.

For Traulsen units purchased with a remote feature, standard warranty will apply only to those components contained within the unit to the point of connection of the refrigeration lines leading to the remote condenser.

"Defective Part Return" – All claimed defective replacement part(s) must be returned to TRAULSEN for inspection within 30 days from the date of the repair. Failure to return all claimed defective part(s) to TRAULSEN will invalidate the warranty claim, this warranty statement, and forfeit payment for those repairs affected.

THERE ARE NO ORAL, STATUTORY OR IMPLIED WARRANTIES APPLICABLE TO TRAULSEN, INCLUDING BUT NOT LIMITED TO, ANY IMPLIED WARRANTY OF MERCHANTABILITY OR FITNESS FOR ANY PARTICULAR PURPOSE WHICH EXTEND BEYOND THE DESCRIPTION ON THE FACE HEREOF. TRAULSEN SHALL HAVE NO OBLIGATION OR LIABILITY FOR CONSEQUENTIAL OR SPECIAL DAMAGES, INCLUDING, BUT NOT LIMITED TO, INDIRECT, PUNITIVE DAMAGES, LOSS OF USE, LOSS OF PRODUCT, DOWN TIME OR LOST PROFITS, GROWING OUT OF OR WITH RESPECT TO THE EQUIPMENT OR ITS SALE, OPERATION OR USE, AND TRAULSEN NEITHER ASSUMES NOR AUTHORIZES ANYONE ELSE TO ASSUME FOR IT ANY OBLIGATION OR LIABILITY IN CONNECTION WITH THE EQUIPMENT OR ITS SALE, OPERATION OR USE OTHER THAN AS STATED HEREIN.

THIS WARRANTY IS IN LIEU OF ALL OTHER WARRANTIES EITHER EXPRESSED OR IMPLIED AND CONSTITUTES TRAULSEN'S FULL OBLIGATION AND LIABILITY. WARRANTIES NOT AVAILABLE ON REMOTE MODELS.

INTERNATIONAL COMMERCIAL WARRANTY

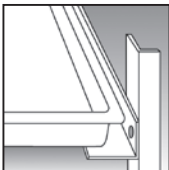

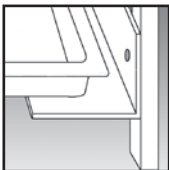

TRAULSEN warrants to the original purchaser the Refrigeration Equipment shall be manufactured free from defects in material and workmanship under normal use and service for a period of one (1) year from date of shipment. Under this warranty, TRAULSEN will reimburse the purchaser for the replacement of any part of said equipment (excluding dryers & refrigerant gas) which then proves to be defective. This warranty does not apply to damage resulting from fire, water, burglary, accident, abuse, misuse, transit, acts of God, terrorism, attempted repairs, improper installation by unauthorized persons, and will not apply to food loss.

TRAULSEN'S standard warranty does not apply to Export Sales. Rather, for a period of one (1) year from date of original installation not to exceed Fifteen (15) months from date of shipment from factory, TRAULSEN: will, at Traulsen's sole discretion, replace or repair, F.O.B. factory, any defective parts normally subject to warranty and will not cover the cost of packing, freight or labor, such costs being the sole responsibility of the dealer.

THERE ARE NO ORAL, STATUTORY OR IMPLIED WARRANTIES APPLICABLE TO TRAULSEN, INCLUDING BUT NOT LIMITED TO, ANY IMPLIED WARRANTY OF MERCHANTABILITY OR FITNESS FOR ANY PARTICULAR PURPOSE WHICH EXTEND BEYOND THE DESCRIPTION ON THE FACE HEREOF. TRAULSEN SHALL HAVE NO OBLIGATION OR LIABILITY FOR CONSEQUENTIAL OR SPECIAL DAMAGES, INCLUDING, BUT NOT LIMITED TO, INDIRECT, PUNITIVE DAMAGES, LOSS OF USE, LOSS OF PRODUCT, DOWN TIME OR LOST PROFITS, GROWING OUT OF OR WITH RESPECT TO THE EQUIPMENT OR ITS SALE, OPERATION OR USE, AND TRAULSEN NEITHER ASSUMES NOR AUTHORIZES ANYONE ELSE TO ASSUME FOR IT ANY OBLIGATION OR LIABILITY IN CONNECTION WITH THE EQUIPMENT OR ITS SALE, OPERATION OR USE OTHER THAN AS STATED HEREIN.

THIS WARRANTY IS IN LIEU OF ALL OTHER WARRANTIES EITHER EXPRESSED OR IMPLIED AND CONSTITUTES TRAULSEN'S FULL OBLIGATION AND LIABILITY. WARRANTIES NOT AVAILABLE ON REMOTE MODELS.

IMPORTANT INTERIOR ARRANGEMENT NOTES:

- The above quantities represent the maximum amount of tray slides recommended by Traulsen to achieve best air circulation and refrigeration performance.
- All 26" deep models are available with shelves only, optional tray slides are not available.
- Deduct one tray slide per door from the above quantities for sliding glass door models.
- Please consult factory for special interior arrangements on "DUT" 24" and 48" wide models.
- Optional tray slides are not available for Compact Undercounter, Compact Prep Table, and Spacesaver models.
- Universal type slides are not available for two and three section "N" width models supplied with fluorescent lights.
- Tray slides are not available for one and two section "D" width models supplied with optional fluorescent lights.

SPIRAL MIXERS HSL & HSU Series

Designed specifically for the unique, high-quality dough needs of commissaries, bakeries, and large pizzerias, this is the spiral mixer you've been waiting for. Hobart mixers speed up the process with the combined action of the spinning dough hook and the rotating bowl. The ingredients mix faster, limiting oxidation, and generate superior-quality dough.

STANDARD FEATURES:

- Heavy duty bowl and spiral motor.
- Extra pulley and strong spiral dough hook.
- Manual and automatic.
- Two fixed speeds and two (2) 20 minute programmable timers.
- No need to stop mixer to change speeds.
- Mounted on casters for easy mobility.
- See through bowl guard.

CUTTER MIXER HCM450

The Hobart HCM lets you cut, mix and blend in seconds with complete control from start to finish . . .

STANDARD FEATURES:

- See-through cover – made of high impact plastic, strong yet lightweight. A built-in scraper, located on the mixing baffle, helps keep the bowl sides and cover clear. Electric interlocks prevent operation when cover is open or bowl tilted.
- Streamlined, functional controls – magnetically operated start and stop selectors are completely sealed and washable.
- Easily removable attachment shafts – lock knob lets you remove them without tools. A Cut/Mix Attachment and a Knead/Mix Attachment are provided to handle all of your needs.

Motor – Hobart Designed	1/6 H.P.	1/2 H.P.	1/2 H.P.	3/4 H.P.

Hobart quality mixers, with “planetary action,” can thoroughly handle your mixing needs. A model to suit every task, small or large. Thoroughly mixes and aerates ingredients, with a gear transmission for consistent results.

Hobart-designed motors, gears and transmissions provide long mixer life. Finishes on all models: Metallic Gray Hybrid Powder Coat.

Optional Attachments and Accessories

9" VEGETABLE SLICER

Certified by NSF

Available with adjustable slicer plate, grater plate and 3/32", 3/16", 5/16", and 1/2" shredder plates. Burnished aluminum finish.

CHOPPING END

Certified by NSF

Standard equipment includes round, stainless steel feed pan, plastic stomper, knife and plate (1/8" diameter holes). Other plate sizes available.

BOWL SCRAPER

To increase productivity, improve sanitation and product quality, the Hobart bowl scraper is an innovative solution. Available as an accessory or an upgrade for existing Hobart mixers. For primary and secondary size bowls.

SALAD DRYERS SDPE, SDPS

Listed by UL, Certified by NSF

- The Hobart Salad Dryers quickly dry up to a case of lettuce (16 heads) in as little as 5 minutes.
- The easy to handle polyethylene spin basket gently spins the water off the lettuce.
- Freshly washed lettuce, stored at the proper temperature, will last up to three days.
- Choose between the economical all polyethylene SDPE or the polished stainless SDPS.

Model 6115: Peels 15 lbs. in one to three minutes. Portable convenience, with the same excellent quality of our larger models. Peeler disc made of abrasive silicon carbide. Removable aluminum hopper door and cam-type pressure lock. Removable Lexan liner. Includes fill hose and four minute timer.

Accessories 6115: Cabinet base and peel trap. Portable wheeled stand and Peel Trap Basket also available at extra cost.

Models 6430 and 6460: 6430 peels 30 lbs. in one to three minutes while 6460 handles 50-60 lbs. in the same time. Peeler disc made of abrasive silicon carbide. Removable aluminum hopper door, aluminum cam-type pressure lock, adjustable legs and centralized controls. Removable Lexan liner. Air-gap type water inlet promotes interior self-cleaning and prevents splash. Timer is standard on single phase. Not available on three phase.

Accessories 6430 and 6460 (select one): Cabinet base and peel trap with stainless steel strainer. Disposer stand (specify model FD3/50-6 disposer. Voltage for disposer must be the same as disposer stand).

Model 6460M: Same as Model 6460 with standard cabinet base and peel trap, casters for easy mobility, and side mounted water inlet with hose fitting.

Finish: Stainless steel peeler and cabinet base. Gray plastic molded hopper cover. Cast ball burnished aluminum door, handle, discharge chute and legs. Resilient rubber trim molding.

Peeler Stand
for Model 6115

MEAT TENDERIZER 403

Listed by UL, Certified by NSF

Lift-out unit has stainless steel knives. Burnished aluminum housing, transparent plastic food chute, 1/2 H.P. motor. The unit includes a knit knife lift-out unit.

Optional Equipment:

Strip Cutter knives for making stir fry or julienne strips available in 3/16" narrow, 3/8" wide or 3/4" extra wide. Knit and Star knives available.

Approximate Shipping Weight: 66 lbs.

Shipping Weight	550 lbs.	555 lbs.

PRIME MIXER-GRINDERS MG1532 & MG2032

Listed by UL, Certified by NSF

The Hobart Prime Inclined Screw Mixer-Grinder puts an end to the bend by putting the grinding head high so trays can be filled at a more natural height. The results are more productivity, less labor cost, and more dollars to your gross margin.

Double wall construction completely separates the meat chamber from the drive componentry.

The entire unit cleans quickly and easily. Here's why:

- Easy-to-clean, self-draining hopper.
- Convenient access to all hopper surfaces.
- Hand-removable, interchangeable seals.
- Mixing arm and feed screw remove easily.
- Designed for quick hose-down cleaning and sanitizing.
- With seals removed, water drains out quickly.

Standard unit includes:

- Footswitch
- Casters
- Cord and plug

	Stainless steel or tinned feed pans available. Legs to convert to floor model. Stainless steel or painted housing available.

MIXER-GRINDER 4246

Listed by UL, Certified by NSF

STANDARD FEATURES:

- Exclusive wedge cylinder for full-rate feed for entire batch.
- 5 H.P. grind motor, 1 H.P. mix motor.
- Up-front, easy-to-reach controls.
- Grinder hopper of glass-bead-finished stainless steel.
- Interlock on hopper lid.
- Hopper lid easily converts for right or left side loading.
- Depending on the type of product, capacity is 140 pounds.
- Tinned cast iron auger.
- Tinned carbon steel mix arm.

HYBRID CONVECTION OVENS

HCO100 Series

Listed by UL, Classified by UL

STANDARD FEATURES:

- 4-pan capacity with 4.75" slide spacing.
 - Utilizes standard 18 x 26" pans
- Patented, self-contained spherical cast steam system.
- Easy-to-use digital control: set temperature, time, steam, fan delay and vent in multiple steps. Store recipes for up to 99 different products.
- Energy saving idle mode.
- Airflow system provides consistent, quality results effortlessly.
- Wide hearth-style viewing window with dual pane glass.
- Stainless steel construction.
- Removable slides for easy cleaning.
- Proofer/holding cabinet and stand base units available to meet your production demands. Units sold separately.

DECK OVENS

OV400 Series

Listed by UL, Classified by UL

STANDARD FEATURES:

- Available in 2 widths: 36.6"w (OV400N) or 60.3"w (OV400W).
- Stack up to four decks in height.
- Each deck is sold and operated independently.
- Stainless steel exterior.
- Glazed stone baking surface.
- Separately controlled top and bottom elements.
- Easy-to-operate digital controls.
 - Temperature
 - Time
 - Steam
- Exhaust from each deck can be combined for a single point exhaust from the top.
- Illuminated bake chamber.
- Glass loading door opens into the bake chamber – minimal loading space required.
- Oven stands (sold separately) are available in several heights to ensure optimal working height at the oven.

REVOLVING TRAY OVENS OV851G Series

Listed by UL, Classified by NSF

STANDARD FEATURES

- Available with 18-, 24-, 30-, 36-pan capacity.
- Hood with grease filters complies with NFPA 96 for Type I or Type II installations.
- Hand-crank for emergency power outage.
- Windowed loading door slides upward, out of the way, to expose a full width 12" high opening.
- Quick-view oven status display has numbers that illuminate in red to identify current oven status.
- Oven is shipped knocked-down and is assembled on site.
- Natural gas with pre-purge.
- Solid metal trays with 3.5" back riser.

RACK OVENS – MINI ROTATING OV310 Series

Listed by UL, Classified by UL

STANDARD FEATURES:

- Stainless steel interior and exterior construction.
- Loading doors with dual pane viewing window and positive latching closure operate independently.
- Easy-to-use digital control: set temperature, time, steam, fan delay and vent in multiple steps. Store recipes for up to 99 different products.
- Air velocity, direction of air flow and the rotating interior rack provide the proper atmosphere to give consistent results.
- Patented, self-contained cast spherical steam system.
- Interior rack is easily removable for cleaning or routine maintenance. Patented removable bottom provides easy access to the oven's floor for quick clean-up.
- Proofer and stand base units available to meet your application demands. Units sold separately.

- New energy efficient OV500G2-EE model is most efficient double rack gas oven on the market per FSTC testing.
- Easy-to-use digital controls: set temperature, time, steam, fan delay and vent in up to 4 steps or stages. Store a maximum of 99 recipes.
- Heavy duty rack lift includes high-temp bearings and slip clutch soft start rotation system.
- Stainless steel interior and exterior construction.
- Flush floor provides easy access – no ramp required.
- Curved bake chamber door is field reversible.
- Integral, curved hood is fully fire-sealed hood for Type I or Type II installations.
- Patented, self-contained cast spherical steam system.
- Built-in rollers and levelers for ease of installation.
- Stainless steel B style rack lift.
- Oven racks sold separately.

SPECIALTY – FOODSERVICE OVEN RACKS Models BSRBFS-13 & BDRBFS-13

20.3"D x 28.4"W x 69.8"H

STANDARD FEATURES:

- Stainless steel construction.
- Precision cut shelves provide a sanitary fit for hotel pans.
- 13 slides with 4.7" spacing (slide to slide).
- Use for cooking or baking, hotel pans or sheet pans.
- OV5001 ovens will fit 1 **BSRBFS-13** rack.
- OV5002 ovens will fit 1 or 2 **BDRBFS-13** racks.
- Can be used in all roll-in retarders, chillers or proofers with 70" door opening.
- 4" swivel type casters – each rated for 400 lbs. and 580°F.
- Shipped assembled, freight class 150, 115 lbs.

BAKERY RETARDER – SINGLE & TWO DOOR RR1 & RR2

RR1

RR2

STANDARD FEATURES

- Stainless steel interior and exterior.
- Self-closing doors with stay open feature at 120°.
- Long life cam-lift hinges.
- Automatically activated incandescent lights.
- Stainless steel breaker caps.
- Automatic non-electric condensate evaporator.
- Magnetic snap-in door gaskets.
- Cord and plug attached.
- 1 year parts and labor warranty.
- 5 year compressor warranty.
- Extra height door opening to fit all types of bakery racks.
- Digital control panel.
 - LED display
 - Temperature monitoring
 - Internal time clock
 - 72 hour data storage
 - Visual/Audible alarm warnings
 - (1) Hi/Lo cabinet temperature
 - (2) Evaporator coil sensor failure
 - (3) Clogged filter-clean condenser
 - (4) Discharge line sensor failure
 - (5) Power supply interruption
 - (6) Door open (cycles and time)
- Stainless steel floor with stainless steel ramp.
- Shipped assembled.
- Self-contained R-134a refrigeration system.
- Operating temperature 36 - 38°F.

SPECIALTY – WATER METER WM600 Series

Listed by UL

STANDARD FEATURES

- Wall mounted. Mounting bracket and hardware included.
- Easy to follow digital controls.
- Dispensing temperature range: 32°F – 125°F. Dispenses up to 1,000 pounds.
- Water delivery can be interrupted and resumed without resetting the system.
- Shipping weight: 52 lbs.

OVENS, COMBI – ELECTRIC CE Series

CE6HD
shown with optional stand

CE10FD
shown with optional stand

CE20FD

CE10FD/CE10FD
Stacked

STANDARD FEATURES:

- Convection, Steam and Combination modes achieve Baking, Grill/Roasting, Steaming, Proofing, Rethermalization, Low Temp, Healthy-Fry, and Delta-T results.
- Electric boilerless combi models using direct steam method.
- Flashing door lights and audible alarm system to alert user when program/cycle is finished – easy recognition for the busy kitchen.
- Optimized cooking functions for maximum production with minimal energy and water consumption (Convection, Steam & Combi).
- Compatible with Traulsen units for synergy operation of hot and cold operations.
- Controls programmable to your recipes; stores 100 programs with up to 10 cooking phases in combi memory.
- Automatic cleaning programs with auto cool down and auto dosing detergent pump featuring hands-free use of built-in wash arm operating with non-proprietary cleaning detergent.
- Rack ID multi-shelf timers allow up to 10 different time settings for your cooking environment.
- Humidity control from 0-100% of possible maximum relative humidity at chosen temperature.
- 4-speed auto reversing fan.
- Cool-to-the-touch and energy efficient heat reflective panoramic curved exterior glass door and insulated panels reflect heat back into the oven.
- Advanced diagnostic with fault history indication, water cooled independent control boards, with LED indicators for service efficiency.
- Water injection button to add water in convection mode (an automatic process during rapid cool down).
- Includes short range wireless communication and recipe software for PC.
- Optional short range wireless barcode scanner.
- (2) Two year warranty on control board, (1) one year parts and labor warranty standard.
- Water Filtration: Your local Hobart representative can recommend a water treatment system to meet the needs of your local water conditions. Our offering includes hollow carbon filters, water softener and RO systems.

OVENS, ROTISSERIE – ELECTRIC, SELF-CLEANING KA7E

KA7E

KA7E
(2 stacked)

STANDARD FEATURES:

- Automatic, self-cleaning oven. Simply push the CLEAN button and the oven does the rest saving approximately one hour of labor per day.
- Automatic chemical injection so the proper amount of cleaning agent is added every time and operators never touch the detergent.
- Automatic grease removal: grease is emptied into a container at the end of every cycle and separated before the wash cycle so it doesn't go down the drain. No grease drawer to drain and clean.
- Fast and efficient with convection and radiant heat plus self-basting action. 20% improvement in cooking performance for fast and efficient production.
- Stainless steel interior and exterior.
- Capacity 28 to 35 birds.
- Classic large viewable tempered glass door with labyrinth design eliminates need to replace gasket with a hinged inner door to keep the heat in the oven, not in the kitchen.
- Controls
 - Easy-to-Use programmable controls on load side with marquee display to keep operator informed
 - Automatic clean button
 - 4 stage cooking
 - 99 cook program capacity
 - Add 5 minute cook time
 - NAFEM protocol ready controls
 - Pass-thru control located on the unload side.
 - Snooze – to add 10 minute cook time
 - Silence Buzzer – to enter hold mode
 - Stop – ends cook cycle
 - “Hands-Free” rotate button for ease of loading and unloading on both sides
- Individual power connections.
- Modular construction. Stack two units, stack on top of a convection oven or combi oven.

ACCESSORIES:

- Must be ordered separately – all models shipped without spits.

GRIDDLES, COUNTER – ELECTRIC

CG Series

STANDARD FEATURES:

- Highly precise snap-action thermostat control and solid-sheathed Incoloy® heating elements in each 12" cooking zone
- Constructed with fully welded frames, 1/2" thick and 24" deep griddle plates, these griddles offer superior durability and uniform heat distribution
- Temperature adjusts from 200–450°F, illuminated cycle light tells operator when griddle is at set temperature
- Heavy gauge 4" stainless steel back-splash and tapered side splashes
- Vulcan's "cool bull nose" design keeps the front rail average temperature below 130°F when the griddle is operating at 450°F

CG58

- High capacity 6 quart grease drawer - (2) for 60" & 72" sizes
- Heavy gauge knob guards protect your temperature settings
- Available in 208 or 240 V, 50/60 Hz, 1 or 3-Phase power supply and 480 V, 50/60 Hz, 3-Phase
- All units shipped with 4" heavy duty adjustable legs

FRYERS – GAS HG Series – Freestanding

Certified by CSA, Certified by NSF

1HG45M

STANDARD FEATURES:

- Stainless steel fry tank with limited 10-year tank warranty.
- Stainless steel cabinet.
- Heat exchanger tubes positioned for simple cleaning.
- HG Series gas fryers are available with millivolt (M) controls.
- Hi-limit shut-off.
- 1 1/4" full port drain valve.
- 1/2" I.D. 3/4" O.D. rear gas connection.
- Nickel plated basket rack.
- Tank brush, scoop, clean-out rod and drain extension.
- Adjustable casters, 2 locking, 2 non-locking.
- Twin basket included.

FRYERS – GAS HG Series – KleenScreen **PLUS**® Fryer Filter System

STANDARD FEATURES:

- Built-in filter system for freestanding models.
- Computer controls with electronic ignition and off-line programming with USB interface.
- Drawer style filter pan assembly with sturdy drawer slides.
- 45 and 85 lbs. fryer capacities.
- One-touch filter controls.
- Lightweight stainless steel pan construction – easy cleaning and dishwasher safe.
- Oil drain valve interlock switch.
- Paperless stainless steel filter screen including a complimentary package of KleenScreen **PLUS**® Micron Filtration Fabric envelopes.
- Solenoid activated one touch push button switch to engage pump and motor.
- 1/3 H.P. motor and pump circulates frying compound at a rate of 8 gallons/minute.
- Boil Out ByPass™ for each fry tank.
- Hands-free oil return line is self seating when drawer is closed.
- High temperature discard hose.
- Adjustable casters, 2 locking, 2 non-locking.
- Single and double basket lifts available.
- Tank brush, crumb scoop and clean-out rod.
- 1/2" I.D. 3/4" O.D. rear gas connection.
- 1 1/4" full port drain valve.

FRYERS – ELECTRIC HF Series - Freestanding

Listed by UL, Certified by NSF

STANDARD FEATURES:

- 50 lb. oil capacity.
- 16-gauge stainless steel fry tank with limited 10-year tank warranty.
- Stainless steel cabinet.
- HF Series electric fryers are available in solid state digital (D) controls.
- Low watt density ribbon style heating elements provide maximum heat exchange surface for higher efficiency; swing up for easy cleaning.
- 17 kW elements
- Temperature control adjusts from 200°F to 390°F within +/-2°.
- High limit control.

- 1 1/4" full port drain valve.
- Tank brush, clean-out rod and drain extension.
- Non-corrosive adjustable legs.
- Baskets included.
- Single basket lift available.

DOOR-STYLE DISHMACHINES – **advansys**

Advansys Ventless

Listed by UL, Certified by NSF, and meets requirements of ASSE Standard No. 1004.

Advansys Standard

Advansys Tall

Internal condensing system minimizes water vapor. Does not require a vent hood. NSF Certified for washing dishes and pots and pans. Adjustable cycle times of 1, 2, 4 and 6 minutes plus condense time. Rinse consumption of only .74 gallons per rack. Three-door wrap chamber design for corner or straight through installation. 70°F rise booster heater with Sense-A-Temp™ technology standard. 17" door opening.

Washes dishes, pots and pans, a 60-quart mixing bowl and up to 6 full size 18" x 26" sheet pans at a time. 27" door opening. Includes 6-pan sheet pan rack.

A front loading shelf can be ordered to make this a front loading machine.

DOOR-STYLE DISHMACHINES LT1 & UW50

LT1 Washer

Low-Temp (120°F minimum – 140°F maximum) chemical sanitizing, fill and dump washer. All stainless steel construction including tank, chamber, doors and frame. Top-mounted control box features an on/off switch, drain/fill switch, cycle light, cycle counter and de-liming switch for cleaning. Low chemical alert with audible and visual alarm provided standard. Self-flushing stainless steel pump strainer.

UW50 Utensil Washer

Front loading, split door. All stainless steel construction. Two upper and two lower revolving stainless steel wash and rinse arms. Stainless steel sloping strainer system with removable stainless steel basket. Top mounted dial thermometers. Adjustable timer. Door actuated drain closer.

POT & PAN WASHERS

TurboWash II

Listed by UL and UL Classified in accordance with NSF Standard No. 2

STANDARD FEATURES:

- Polished stainless throughout. Sinks, drainboards, splashes and rolled rims are 14-gauge.
- Heavy-duty centrifugal pump with 4" diameter intake, 3" diameter outlet, and 300+ GPM.
- 2 H.P. totally enclosed (TEFC) wash pump motor with permanently sealed bearings.
- Stainless steel pump and impeller.
- Self-draining pump.
- Low water protection for wash pump motor with inherent motor protection.
- 8-1/2" angled stainless steel wash nozzles.
- 11" high x 2 1/2" deep backsplash.
- On/Off wash pump motor switch.
- Options include wash sink heater, faucets, pre-rinse sprays, lever drains, wash sink sump strainer, automatic shutdown timer, auto fill, wash tank separator, utensil basket, overshef, undershef and disposer swirl piping.
- Disposer controls with or without single point electrical connection.
- Available in left-to-right and right-to-left configurations.
- Removable, welded H frame leg sets and adjustable bullet feet.
- Detachable and adjustable height cross rails.
- Dual inlet strainers.

UNIT SIZING SELECTIONS:

- **Soiled and Clean End Edges:** Hemmed, rolled, end splash, dishmachine connection.
- **Soiled and Clean Drainboards:** 12", 18", 20", 24", 30", 36", 42", 48", 54", 60" (Soiled Drainboards 36" and above may include 15" disposer cone). (18 1/2" Clean Drainboard only).
- **Scrappers:** 20", 36" (36" scrapper may include 7" disposer flange.)
- **Wash Sink:** 30", 32", 36", 42", 48", 54", 60". Available as wash sink only for "weld-in" application.
- **Rinse Sink:** 15", 18", 20", 24", 30", 36".
- **Sanitizer Sink:** 18 1/2", 20", 24", 30", 36".
- **Electrical Specifications:** 208-240/60/1, 208-240/60/3, 480/60/3.

Custom configurations to fit your application can be designed. Contact your Hobart representative for further information.

UNDERCOUNTER DISHMACHINES

LXe Series

Listed by UL, Certified by NSF, and meets requirements of ASSE Standard No. 1004

LXeC/LXeH

LXeR/LXePR

The LXe base model and **Advansys** LXe models are available in hot water or chemical sanitizing and have been designed from the ground up to support best-in-class wash performance and are ENERGY STAR® qualified for energy- and water-saving capabilities.

Deluxe microcomputer, top mounted controls with LED cycle/temperature display with advanced service diagnostics. High temperature models standard with built-in 70° rise booster including Sense-a-Temp™ technology ensuring 180° every cycle.

The base models offer up to 32 to 34 racks per hour production using .74 gallons of water per rack. Constructed of stainless steel for rugged durability. Chamber height of 17" to accept 16" x 18" trays and 30 qt mixing bowls.

All LXe models feature redesigned, easily removable wash arms and the **Advansys** LXe features patented pending snap-in rinse arms that are even easier to remove and install. Deluxe soil management system with large removable stainless steel scrap screen and secondary fine strainer. Auto Clean cycle washes down inside of machine at shutdown. Pumped rinse and pumped drain. Automatic delime notification with designated delime cycle. Low chemical alert indicator with audible and visual alarms on machine with chemical pumps to meet NSF regulations.

The **Advansys** LXe high-temp model uses only .62 gallons of water per rack and the LXe low-temp model is slightly higher at 1.14 gallons per rack, due to the PuriRinse feature.

The **Advansys** LXe lets operators choose from three different cycles: light, normal, heavy. Exclusive NSF Pot and Pan rating on heavy cycle (LXeR only).

The **Advansys** LXe high-temp model features Hobart's patented Energy Recovery technology allowing the machine to recycle hot water vapor produced during the wash and rinse cycle and uses it to preheat cold inlet water and reduces steam released into the air.

The **Advansys** LXe low-temp model includes PuriRinse – a fresh-water rinse after the chemical sanitizer cycle to remove the chemicals from glasses. **Advansys** LXe models offer advanced features including clogged wash arm alert informing the operator of obstructions, automated delime cycle for machine and booster, and other programmable options.

Standard with two dishracks – one peg and one combination. Chemical Pumps standard – detergent, rinse aid plus sanitizer for chemical machines (**Advansys** models also include Delime pumps).

NOTE: For Selection factors see page 77.

GLASSWASHERS

LXiG Series

Listed by UL, Certified by NSF, and meets requirements of ASSE Standard No. 1004

High production, fresh water rinse machines. Constructed of stainless steel including sides and top for rugged durability.

Top mounted slide out microcomputer controls with digital cycle/temp display. Automatic delime notification with designated delime cycle.

Up to 30 racks per hour production using .74 gallons of water per rack. Chamber height of 12". High temperature models available with built-in booster including Sense-a-Temp™ technology ensuring 180° every cycle.

Top and bottom debossed anti-clogging wash and rinse arms. Heavy-duty stainless steel door, hinges and tank. Labyrinth-type door seal eliminates the need for a gasket. Large removable stainless steel scrap screen.

Powerful wash pump with 54 gallons per minute capacity. Automatic fill. Low chemical alert indicator with audible and visual alarms on machine with chemical pumps to meet NSF regulations. Standard with two dishracks. Available in hot water or chemical sanitizing.

AUTOMATIC RACK CONVEYOR DISHMACHINES

CL44e

Listed by UL, Certified by NSF, and meets requirements of ASSE Standard No. 1004

CL44e

STANDARD FEATURES

Standard insulated hinged doors on Hobart's CL_e Warewasher provide full and unrestricted access into the chamber. The insulated doors emit 76% fewer watts of energy into a room.

Microprocessor controls include exclusive features such as Energy Saver mode, dirty-water indicator, low-temperature alerts, delime notification and a conveyor dwell mode for an endless wash zone of heavily soiled ware.

Thermal layered curtains are designed to improve temperature retention by an additional 2° to 3°F.

Computational fluid dynamic designed wash system ensures proper alignment and improved results with a full 20 inches of separation between the wash and the rinse zone.

Rapid Return drive system improves wash and rinse results as well as reduces the stress on the drive mechanism with more even throughput.

Pump intake screen not only prohibits large debris from getting into the pump but also the drain as well. The new chamber design provides 67% less interior baffling and wash pipes to clean around.

The improved one-piece strainer pan simplifies the cleanup process. A new exclusive above the waterline design for the pump and drive motor increases reliability. The new 23-gallon prewash tank allows for more food soil to be absorbed before refilling.

When electric heat is specified on any automatic conveyor dishwasher, disconnect switches are recommended for each power circuit connected to dishwasher. These disconnect switches are NOT furnished by Hobart and should be installed in the power circuits ahead of the dishwasher by the electrical contractor at the time of installation.

For Selection Factors and Ordering Data – see Page 77.

PS22 An efficient 22" heavy-duty power scrapper for top performance and ultimate efficiency. The PS22 does not use any additional hot water; it has its own pump which recirculates the detergent and wash water overflow from the power wash tank.

Racks per hour (19 ³ / ₄ " x 19 ³ / ₄ ")	202
Conveyor Speed – feet per minute	5.6 max.
Dishes per Hour (Average 18 plates per rack)	3,636
Glasses per Hour (Average 36 per rack)	7,272
Floor Space – Table to Table (Inches)	44
Overall Dimensions – H x W x D (Inches)	70 ¹ / ₄ x 45 ¹ / ₄ x 30 ¹ / ₄
Motor – See 2 Page 77 (H.P.)	2
Conveyor Drive	1/6
Number of Tanks	1
Tank Capacity – Gallons	23
Pump Capacity – See 3 Page 77	
Gallons per Minute – Weir Test	165
Heating Equipment – See 4 Page 77 – (For keeping power wash and/or power rinse water hot)	
Gas Burners (with Natural Gas) – BTU per hour	78,000
Electric Heating Unit – Size Used	Regulated 15 KW
Rinse – See 5 Page 77 – Minutes operated during hour of maximum operation	60
Final Rinse Flow – Gallons per minute	1.8
At 15 PSI Flow Pressure	
At 20 PSI Flow Pressure	2.1
Final Rinse Flow – Gallons per hour – MAXIMUM	
At 15 PSI Flow Pressure	108
At 20 PSI Flow Pressure	126
Rinse – 20 PSI Flow Pressure	Hot Water Sanitizing – Chemical Sanitizing
Gallons/Rack	.62 - 180°F – .62 - 140°F
Steam Consumption – Pounds per hour – MAXIMUM Approx. 30 lbs. per hour = 1 boiler H.P. (BHP) Dishwasher, based on 20 PSI steam and on customer supplying final rinse water at 180°F maximum	65 lbs./hr.
Steam Booster , if used on 20 PSI steam – Pounds per hour – 20 PSI water flowing – 130°F entering water raised to 180°F minimum	60 lbs./hr.
Exhaust Requirements – Cubic feet per minute (CFM)	200
Entrance End	
Discharge End	400
Discharge End w/Blower Dryer	Same as Above
Peak Rate of Drain Flow – Gallons per minute (GPM) (Initial rate with full tank)	38
Shipping Weight Crated – Approximate	613 lbs.

AUTOMATIC RACK CONVEYOR DISHMACHINES – **advansys**

CL44eR

Listed by UL, Certified by NSF, and meets requirements of ASSE Standard No. 1004

CL44eR

STANDARD FEATURES

Standard insulated hinged doors on Hobart's CLeR Warewasher provide full and unrestricted access into the chamber. The insulated doors emit 76% fewer watts of energy into a room. Energy Recovery system captures the energy from the exhaust air to elevate the temperature of the cold water supply to 110° to feed the booster heater.

The Energy Recovery system captures escaping heat and steam from the exhaust air and uses a heat exchanger to recycle it into energy. This free energy is used to preheat the incoming water supply before it enters the booster heater. The cold ground temperature water passes through a heat exchanger positioned directly in line with the machine's unload exhaust system to capture the energy from the exhaust air and ware leaving the machine to elevate the temperature of the water to 110° before it enters the booster heater.

Microprocessor controls include exclusive features such as Energy Saver mode, dirty-water indicator, low-temperature alerts, delime notification and a conveyor dwell mode for an endless wash zone of heavily soiled ware.

Thermal layered curtains are designed to improve temperature retention by an additional 2° to 3°F.

Computational fluid dynamic designed wash system ensures proper alignment and improved results with a full 20 inches of separation between the wash and the rinse zone.

Rapid Return drive system improves wash and rinse results as well as reduces the stress on the drive mechanism with more even throughput.

Pump intake screen not only prohibits large debris from getting into the pump but also the drain as well. The new chamber design provides 67% less interior baffling and wash pipes to clean around.

The improved one-piece strainer pan simplifies the cleanup process. A new exclusive above the waterline design for the pump and drive motor increases reliability. The new 23-gallon prewash tank allows for more food soil to be absorbed before refilling.

When electric heat is specified on any automatic conveyor dishwasher, disconnect switches are recommended for each power circuit connected to dishwasher. These disconnect switches are NOT furnished by Hobart and should be installed in the power circuits ahead of the dishwasher by the electrical contractor at the time of installation.

For Selection Factors and Ordering Data – see Page 77.

AUTOMATIC RACK CONVEYOR DISHMACHINES CL_e & CL_eR Series

Side Loading Option SL23_e and SL30_e

Listed by UL, Certified by NSF and meets requirements of ASSE Standard No. 1004

An accessory to adapt any Hobart CL_e Dishwasher to a corner or side loading operation. Adds 23" or 30" to length of machine. Here is a way to save up to 20 square feet or more in your dishroom layout.

Racks of soiled dishes, trays, silverware, etc. are automatically indexed 90° from the soiled dishtable into the dishwasher by means of a stainless steel reciprocating, center-indexing pawl.

Stainless Steel. 100 lbs. Shipping Weight.

Built-In Electric Booster Heater

A built-in 15-30 KW, electric, stainless steel, pressure-less (atmospheric pressure), pre-wired and pre-plumbed electric booster heater is now an option for all CL_e models. This new built-in booster heater represents the best alternative for our customer, as it is designed to deliver the volume of water required by Hobart's exclusive Opti-Rinse™ system. This new enhancement to the world class CL_e series of dishwashers will simply save: installation cost and coordination, process for ordering equipment, valuable floor space, and operator training. The booster heater is also designed to simplify de-liming procedures, which will promote a longer life cycle as compared to other freestanding booster heaters.

30 KW built-in booster heater standard on all CL_eR models.

DDU38_e Direct Drive Unloader

DDU38_e shown with CL44_e Dishwasher

An accessory which adapts to any CL_e that automatically discharges the racks at a 90° angle from the operation of the machine onto a clean table. The DDU38_e is driven by the conveyor drive of the CL_e and does not require an additional electrical source. The DDU38_e only adds 38" to the overall length of the machine, but it can save nearly 20 square feet of floor in your dishroom. Stainless steel construction with a 1½" drain fitting.

Blower-Dryer Option for CL_e and CL_eR

The most energy-, space- and performance-efficient conveyor blower dryer we've ever made.

Using 76% less energy and 45% less space than prior models, the CL_e blower dryer is the perfect finishing touch to one of the most energy-, water-, labor- and space-efficient conveyor warewashers in the industry, Hobart's CL_e and CL_eR.

Selection Factors and Ordering Data

- 1. MACHINE RATINGS** Racks per hour ratings represent the maximum mechanical capacity of each dishmachine. For average conditions, base estimate on approximately 70% of the machine capacity and average rack capacity of:

- 16-18 9" Dinner Plates Per Rack
- 25 Water Glasses Per Rack
- 16 Coffee Cups Per Rack
- 100 Pieces of Flatware Per Rack

All Racks 20" x 20".

Production of clean dishes will vary with factors such as; the type and efficiency of the dishroom layout, traffic flow, amount, type and length of time the food soil has remained on the dishes, relative hardness of water, industry of the dishmachine operator, fluctuations in flow of soiled dishes to the dishroom & so on.

Your Hobart representative will be glad to help you select the right dishmachine to fit your particular warewashing requirements.

- 2. MOTORS & PUMPS** Highly efficient motors, pumps (Weir Tested) and wash systems – designed for each particular model – assure the proper volume of water at the required pressure.

- 3. PUMP CAPACITY** Volume of water circulated over dishes is not water consumption. When tank has been filled, water is circulated by the pump.

- 4. HEATING EQUIPMENT** Supplied to keep the water hot in the tank, or tanks, of the machine. When electric heat is specified, a disconnect switch (NOT furnished by Hobart) is recommended. The disconnect switch must be supplied and installed by the electrical contractor and connected in the heater electrical supply circuit ahead of machine at the time of installation.

- 5. RINSE WATER** Adequate hot rinse water is essential to operation. Actual consumption of hot water will vary with pressure of the supply, speed at which machine is operated, and the general dish table layout. In estimating hot water requirements the following points should be considered:

- a. Pressure – A flowing pressure of 20 lbs. is ideal. "Flowing Pressure" is indicated on a pressure gauge installed at the inlet side of final rinse valve and read when rinse water is flowing. Pressure regulators are recommended when the flowing pressure exceeds 25 lbs.
- b. Rate of flow – The figures indicate relatively high momentary requirements of the models on which operation is intermittent (AM Series). For these models, ample storage capacity should be included in order that the "non-flowing" periods may be used for building up the supply.
- c. Temperature – National Sanitation Foundation Standards require final rinse of 180° F minimum for hot water sanitization machines registered on the final rinse thermometer. Where regular hot water supply at the machine is below 180°F, a booster heater is recommended.

Please refer to booster sizing charts for proper booster size.

To assure prompt handling of your order, include complete data on the following:

USER'S NAME, ADDRESS AND ZIP CODE

SHIPPING DATE REQUIRED

For CLe and CLeR Dishwashers:

Model Number
Direction of Operation – Right to Left or Left to Right
Electrical Specifications – Voltage • Cycle • Phase

Type of Heat:
Electric
Gas: Natural or LP Gas
Steam: Flowing Steam Pressure

For FT Dishwasher:

Model Number
Section Dimensions
Direction of Operation – Right to Left or Left to Right
Electrical Specifications – Voltage • Cycle • Phase

Type of Heat:
Electric
Steam: Flowing Steam Pressure, Type: Coils

For Final Rinse Water Booster:

Electric
Steam
Model Number
Flowing Steam Pressure
Incoming Water Temperature

Include list of desired accessories.

Operator training videos are available at extra cost on selected machines.

Contact your local Hobart office for complete information.

FOODWASTE DISPOSERS

Disposers

Basic units are listed by UL

There's no doubt about it – cleanup is a messy job, but Hobart can assist this operation with quality-built Foodwaste Disposers. A model for every requirement with optional controls, components and adapters. Check the chart below for your specific needs.

Hobart Disposer Selector Chart

Meals Per Day		200 to 300	300 to 500	500 to 1000	1000 to 2000	2000 to 4000

NOTE: Adapters are made available to install Hobart Disposers on existing cones. Short upper housing is available for FD3-50, FD3-75, and FD3/125 only.

FOODWASTE DISPOSERS

Accessory Components

GROUP A – For All Models Use with Long Upper Housing

GROUP C – For All Models Use with Long Upper Housing

GROUP B – For All Models Use with Long Upper Housing

GROUP D – For All Models Use with Long Upper Housing

GROUP E – Models FD3/50 thru FD3/125

FOODWASTE DISPOSERS

Electrical Controls

Listed by UL for use with FD Disposers

Group 4 – For Models FD3/50 thru FD3/200

Includes:
Manual Reversing Switch
NEMA 1 Enclosure
NEMA 4 Enclosure Optional
Not available above 250 volts
Optional Solenoid Valve

Group 2 – For All Models

Includes:
Magnetic Contactors
Pushbutton Start and Stop
Automatic Reversing
Made from NEMA 12 Enclosure
Solenoid Valve

Group 3 – For All Models

Includes:
Magnetic Contactors
Pushbutton Start and Stop
Automatic Reversing
Low Water Pressure Cut-off
Time Delay for water after shutoff
Line Disconnect
Solenoid Valve
Made from NEMA 12 Enclosure

HOBART SERVICE PROGRAMS

SERVICE REPAIRS (Warranty/Non-Warranty)

- Rapid response time (especially on emergency repairs)
- Specially trained service technicians
- 24-hour emergency service
- Genuine OEM parts used
- 90-day service warranty on all repair work completed
- Technicians have the ability to work on most brands of commercial food equipment

DELIVERY AND INSTALLATION

- Single point coordination for equipment installations
- Removal and disposal of any existing equipment
- Final hook-ups to existing electric, water, drain, gas, steam, etc.
- Free post-installation equipment performance check
- Flexible scheduling for “non-peak” or “off-hours”

EXTENDED WARRANTY CONTRACTS

- Purchased at the time of the original equipment sale
- Ensures continuous service contract coverage in the second year
- Automatically kick in when the warranty period expires
- Standard service contract terms apply
- 20% discount off standard contract rates

SERVICE PLANS

- Allows customers to “budget” service costs
- Cover standard repairs (parts and labor)
- No travel charges within 100 miles of a Hobart office
- Special rates available for overtime and holiday calls
- Flexible terms and customized coverage options
- New! Hobart ProSurance™ plans that provide a comprehensive, proactive approach to equipment care that helps prevent breakdowns from occurring in the first place. Includes:
 - ongoing proactive maintenance
 - proactive replacement of known high-wear parts
 - full parts and labor coverage
 - flexible response time options – includes same day response guarantee

PROACTIVE SERVICE (PM)

- Lengthens equipment life and enhances operating efficiency
- Includes regularly scheduled basic maintenance tasks
- Formal checklist used with recommended procedures
- Any required repairs will be identified and can be performed on the spot (if requested)
- Flexible terms – single call or ongoing contractual agreements available

PARTS AND ACCESSORIES

- Locally stocked based on market demand
- Genuine Hobart, Baxter, Vulcan, Traulsen and Wolf parts provided
- Overnight shipping available nationwide
- Over 35,000 parts in our National Distribution Center ready for overnight shipping
- Service technician’s trucks equipped with the right parts needed for your equipment
- \$65 million in offices around the country

IN-HOUSE SERVICE SUPPORT

- Hobart service expertise backs up your maintenance personnel with a wide range of programs tailored to your exact needs. As a result, you get the best performance from your people – and from your Hobart equipment. Key elements of Hobart’s support program include:
 - Technical manuals
 - Parts availability program
 - Preventive maintenance program
 - Local technical support
 - Recommended parts stocking guidelines
 - Fee-based training programs

WATER TREATMENT SYSTEMS

- Designed to enhance equipment performance, quality, and prolong its life cycle
- Hobart technicians can provide everything your equipment needs, from installation, service on your equipment, and maintaining your cartridge replacements

To reach your local Hobart office for Service and Parts and to learn more about Hobart’s National Service Programs, contact your local Hobart representative or call:
